## Mission Action Profile (MAP) in China

A rapid pace of change and economic growth characterize modern urban China. Despite a growing Christian church, it still represents a small minority of the population. Mennonite Church Canada Witness supports a ministry which seeks to empower the church in China to meet these challenges.

### **Mennonite Church Canada involvement:**

- › *Christian English teachers placed in colleges and universities:*  
(MC Canada Witness will have seven workers in China in 2004).
  - These teachers share the Gospel of Jesus Christ and provide a link between students and local churches.
- › *Empowering the Chinese church:*
  - Church-based summer English programs which encourage community people to learn about the church, its people and what God is doing in the world.
  - Mennonite workers encourage churches in their walk with in places like Daming and Puyong, where Christians may not be well received.
  - Financial and emotional support for rural pastors in challenging settings.
  - Assistance for church building projects to create spaces for worship and centres from which mission can originate locally.
- › *Social development programs in Sichuan Province:*
  - The following projects, coordinated with church and civic leaders, lift the church's profile as servants of the community...
    - Hearing improvement project: hearing aids and educators for hearing impaired children.
    - Student sponsorship program.

**Mennonite Church Canada Witness has committed \$150,000** to this ministry in China, in partnership with three other Mennonite agencies through the China Educational Exchange (CEE). Your prayer and financial support makes this ministry possible.
