International Witness Support Networks

Extend your hands across the table to learn
from brothers and sisters around the world.

How can congregations be involved?

- Each Network focuses on one ministry. Choose a ministry that your congregation is excited about. There are many to choose from. Go to mennonitechurch.ca/witness-support-networks to learn more.
- Congregations supporting the same ministry are in a Network together. Representatives from each community meet online for encouragement and ideas. In this way, Networks offer more ways to connect with congregations across the country.
- Mennonite Church Canada and regional churches help facilitate your Networks. Witness workers and/or international partners take active roles in the Networks by giving updates on their ministries and learning about their supporting Canadian congregations.
- Congregations identify how best to contribute to their Network. Learning, giving, praying, visiting and working together are just the beginning. The opportunities are endless. Networks are built on years of support given to International Witness from congregations across Canada.

The goal of the Networks is mutual learning, giving and sharing through relationships.
